

CHRISTIE Replacement Filters

DATE: 03/08/2012

It is very important for Christie digital projector that the filters to be changed regularly to prevent the projector from overheating. The Xenon lamp itself can also over heat if air filters become blocked which can lead to the lamp not reaching warranty hours.

TLS UK has researched and identified the filter media used in the Christie original filters and sourced our high performance equivalent. Our filters have been successfully protecting hundreds of digital projectors for over two years in the UK multiplex circuits.

We offer our filters as a kit, so customers just need to select the projector model:

Projector Model	ORDER CODE	FILTERS PER KIT
CP 2000S	C004	1
CP 2000H	C004	1
CP 2000X	C004	1
CP 2000SB	C004	1
CP 2000ZX	C011B	1
CP 2220	C011	2
CP 2230	C011	2
CP 2000M	C012	1
CP 2210	C012	1
IMAX digital series 1	C004	1
